**DETAILED ACTION**

1. The amendment of 5/30/06 has been considered.

***Allowable Subject Matter***

2. Claims 3-12, 14-35 are allowed.
3. The following is an examiner's statement of reasons for allowance:

As per Claim 3 and 23.

The prior art of record does not teach or suggest processing historical data for a customer in order to determine tolerance parameters for the consumption information of the customer and then using an audit of the customer's consumption data to determine if the consumption data meets the determined tolerance.

As per Claim 14.

The prior art of record does not teach or suggest subscribing a customer to a rate schedule that provides cost savings based on the results of processing historical consumption data against predetermined tolerance values and rate data schedules, then compensating the parties based on the cost savings of the customer.

As per Claims 21, 27 and 33.

The prior art of record does not teach or suggest processing historical consumption data that meets predetermined tolerance values with rate data schedules to identify potential cost savings and then using the results of the processing to permit the customer to select a rate schedule that would provide cost savings to the customer.

The claims that depend from the above allowed claims are allowed for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
